

# LAB SAFETY AWARENESS WEEK

## Biohazard Spills and Exposures

### Spills

Create or purchase a “Spill Kit” to clean up spills of biohazardous materials, including recombinant or synthetic nucleic acids, or pathogenic agents

### Exposures

Seek medical assistance at the Employee Health Medicine clinic (RedMed) within 24 hours and report the exposure to EHS Biosafety @ehs.Utah.edu -or- (801) 581-6590
